

2017-08-27 CSULB Email Security Verification Required

This is a phishing attempt first reported to CSULB ITS on **August 27, 2017**.

From: Arnold Kaminsky
Sent: Sunday, August 27, 2017 1:59 PM
Subject: CSULB Email Security Verification Required

Summary

The fraudulent email is very vague and informs recipients of a supposed CSULB system alert and to click on a link to verify their email. This phishing email comes from an actual CSULB account which has been compromised by phishers/hackers and is being used to broadly email the campus. The compromised account issue is being addressed.

Intent of the Email

The sender is attempting to capture email account credentials for their own malicious purposes or to install malware. The link has been blocked by most web browsers.
