To: Recipients  
Subject: WebMail Account Upgrade.

As part of ongoing corporate security evaluation procedures we have identified an online intrusion in your Web Mail account and our automated system scan shows that your account has been effected by some DGTX virus that might be very harmful to all our subscribers.

We strongly recommend you to copy or click this url to scan your mailbox now.  
<http://crumchy.ohost.de/online/> Please do note that none of your files will be lost during this routine service.

Failure to upgrade your account will render your account from sending and receiving mails.

Thank you,  
Technical Mail Admin.
