

Kurzweil V13 install

Kurzweil Web License Software Install

Installs the software to a PC computer.

Kurzweil 3000 Ver. 13

You will need administrator privileges to install.

1. Place the Kurzweil DVD into computer
2. Double click the **Setup** file
3. In the Master installation dialog box, select **Web Licensing Software**
4. Select **install Web licensing Software**
5. Select **Next**
6. Select **Accept** for license agreement
7. Enter in the user name field **Student Services Division**, and the Organization field as **CSULB**
8. Select **Complete** for install type
9. Select **Install** to start the process
10. Select **Finish**
11. Select **restart** to complete

Installation is complete; each user is assigned a user name and password. This is validated by the web licensing. You will also need to create a shortcut or favorite for the Firefly web. <http://www.fireflybykurzweil.com/>

If a user does not have a name and password they must contact the HTC to register for an account. Accounts can only be granted by the HTC. Call 562-985-8712.

Software for installation may be obtained from Student Services Division Technical Support. (for lab installations request the MSI) 64 bit installations require a separate installations of the virtual printer and task bar (see the x64 folder on the install media or download from <ftp://ftp.kurzweiledu.com/pub/x64/>).
