

How to forget and re-establish beachnet+ connection: Mac

Select the wifi icon in the top right and then select "Open Network Preferences..."

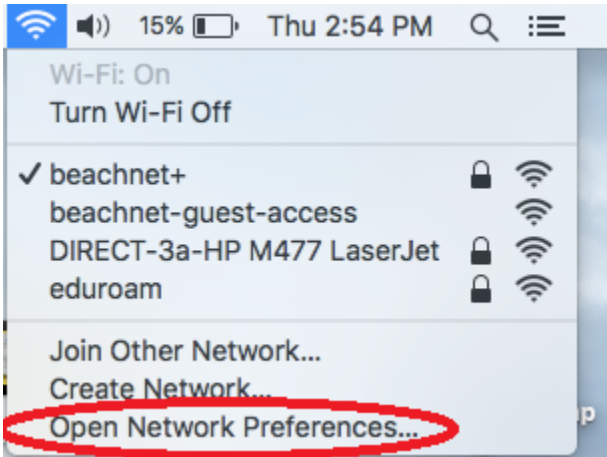

IMAGE 1: WiFi - Open Network Preferences box

Select the Wi-Fi tab and then click on the "Advanced..." button on the lower right hand side.

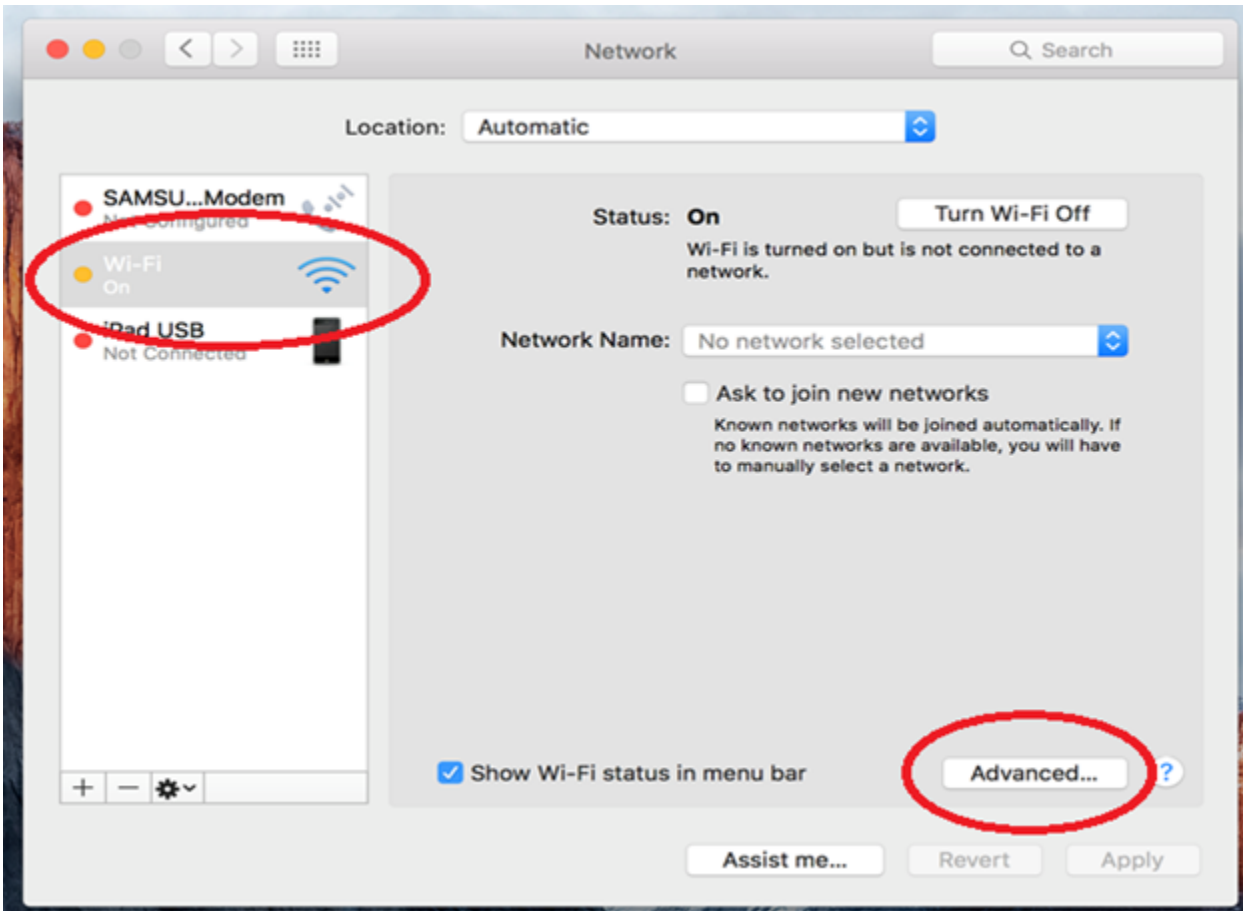

IMAGE 2: Network Preferences box

Select "beachnet+" from the window within the Wi-Fi tab window and click the "-" button below the window. After removing the network, click the OK button on the bottom right.

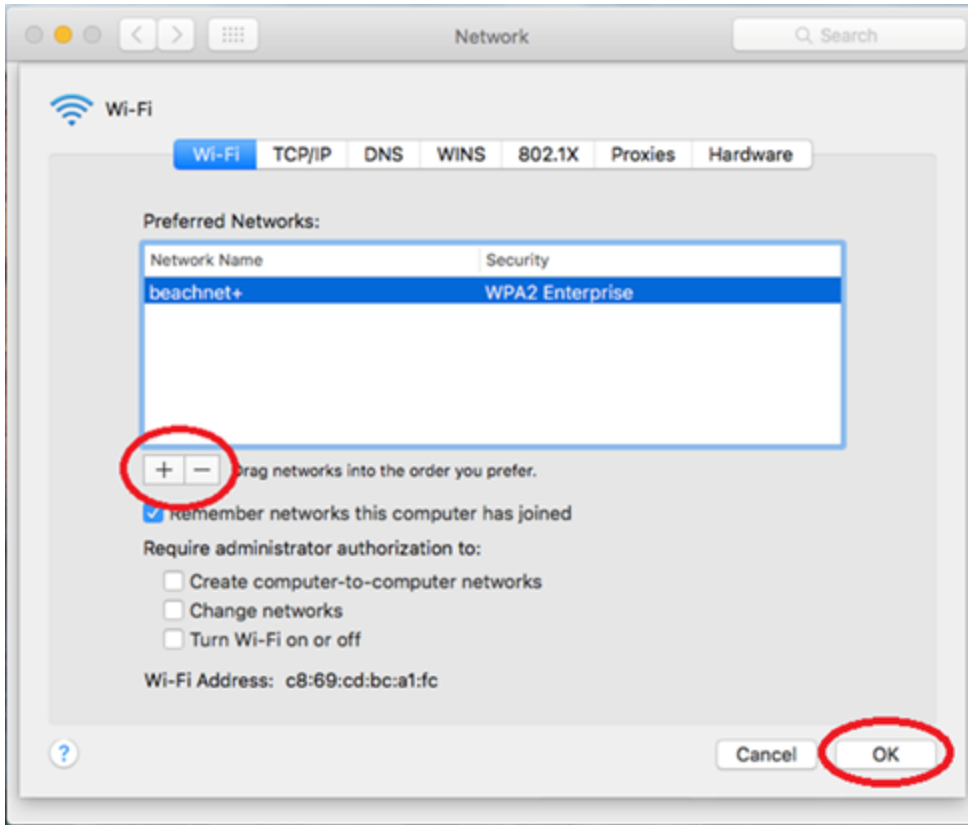

IMAGE 3: Network Preferences-Advanced box to remove network

Then click the “Apply” button on the bottom right and you can then close the window.

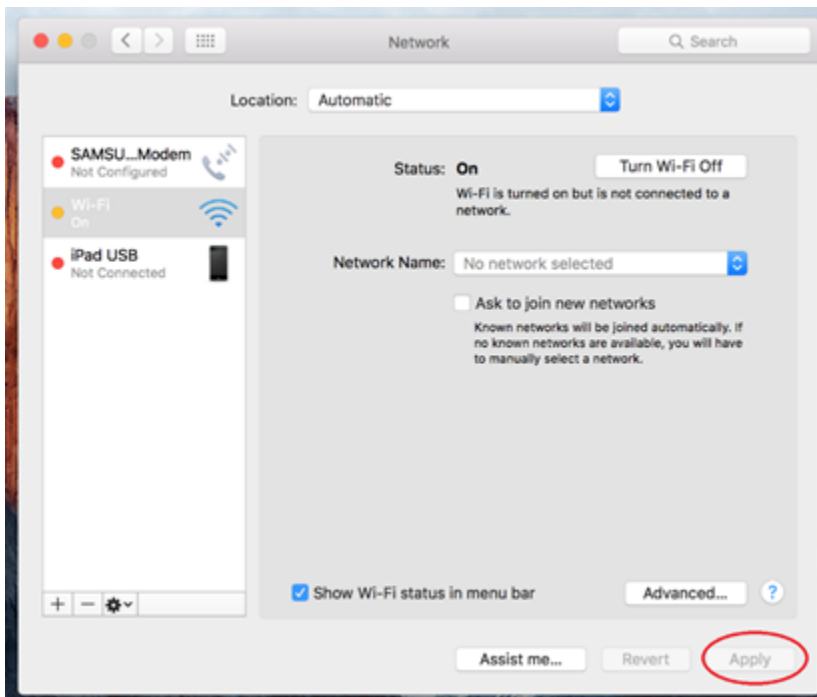

IMAGE 4: Network Preferences box

Go back to the Wifi symbol on the top right of the screen and select “Beachnet+” from the list of available networks.

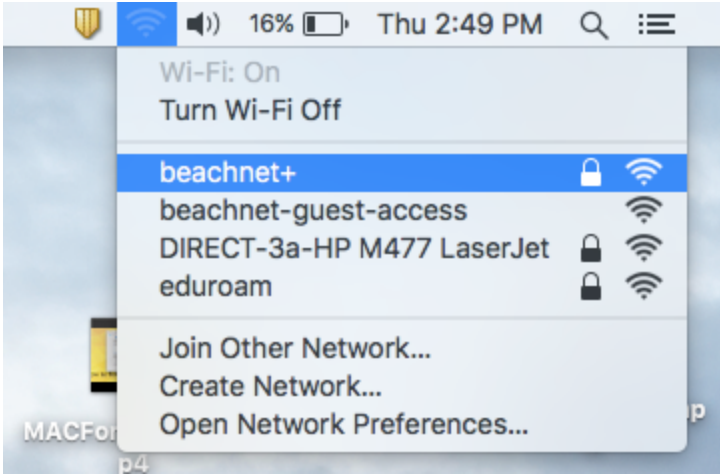

IMAGE 5: Click WiFi icon for list of available networks

When prompted for credentials, enter your campus ID# in the Username field and your BeachID password in the Password field. Click on the "Join" button on the bottom right.
