

Single Sign-On (SSO) Service

Using your campus ID (or campus email address) and password, Single Sign-On is a service which allows a single location for accessing multiple campus applications and services upon successfully logging in at <http://sso.csulb.edu>. Access to applications and services will vary depending on your campus role, such as if you're a student, faculty member, or staff member with specific job-related roles.

For assistance, or if you have questions, please contact the Technology Helpdesk at 562-985-4959 or helpdesk@csulb.edu
